Hi Jesse,  
Document #100006901 and 1771624 have now been entered into SC #22151. They are also viewable in SEMS.

All other Vasquez Blvd. documents that were in RTI have been entered into SEMS and scanned. You can view them anytime. I'm really not sure why Mark was having trouble and getting an error message.

You might want to contact Dave Christenson regarding the OU3 AR collections. I believe he would be the one to delete any unwanted collections.

Thanks,

Hello Rodney:

The collection ID for Five Year Reviews is 22151. You can place the document you received and the second Five Year Review (ID 1771624) in there.

I uploaded several documents on August 31, 2018 that Mark tried to code but his system crashes whenever he tried. He gets an error message that there is no document attached and then his screen completely locks up. He asked Dave about this problem. Do you know what may be causing this?

I also looked at the various collection for OU3. I found the following collections: 9141, 61505, 17291. These are the only ones I saw that relate to OU3. They all are administrative records. Looking at their

contents I don't think they are. I will like to remove collections 61505 and 17291. Then I will like to clean collection 9141 to keep just the documents needed for the administrative record. How do we go about it?

Thanks,

Jesse

Mark or Jessie,

I received an Vasquez Blvd RTI document titled "Third 5 yr. Review Report" #100006901 tracking #30163. Does this document need to be put into a special collection? and if so can you tell me which one. There are many different collection already made.

Thanks,
